[What happened yesterday wasnt the scariest thing to happen in America. The left is just acting like it was. They are actually loving this. We are all veterans to how fake news narratives work. The capital looked like a fucking warzone last year during the BLM riots that the media encouraged.](#)

If it were the other way around, all you would hear are excuses and how the protesters are justifiably angry. And you'd hear how an innocent, unarmed woman was shot and killed by police. Dont let yourself be discouraged or gaslighted now for being a Trump supporter. That is what they're all doing, so it's easier for you to now accept their socialist transition without any resistance. You already know how they operate.

The same people clutching their pearls are the same people who write on Twitter during all the BLM riots that civil disobedience and rioting is akshually the most american thing you can do since that's how the country was founded. Burning and looting Best Buy is apparently more american than looting Pelosi's office lmao. And the next breath they say it's peaceful protests and not violent. The shit people come up with when they support the cause.

Thousands of trump supporters marched on the capitol peacefully

Then the proud boys or patriot prayer fuckers broke down the barricade to the laen and spent 2 hours encouraging people to storm the lawn. Wich they did. They filled itt

Then it was only a handful of young nick fuentes types that broke the second barricade and entered the capitol. Almost everyone was either on the laen peacefully singing the national anthem or behind the lawn on the public streett

Even the ones who stormed the building didnt hurt anybody.. they took selfies

Blm burned down a courthouse and anti kavanaugh rioters stormed the capitol more violentlyy

The police clearly put a show on one side of the building keeping people away while letting them in the other side without much resistance.

The overwhelming majority of the crowd stayed away from the capitol

You have to realize there are paid agitators that encite violence and set up platforms for the opposition. They have to change the narrative any way they can. Which story sells and keeps the people asleep, there is a narrative and it will be put out there at any means it takes. Locked and loaded guns pointing at protestors, who are barely in clear view. Where else has this happened before?

Why is this downvoted?

Unless you have ALL the facts and information nobody else has it is disingenuous to give credit/blame to Antifa for what Patriots did.

Where is everyone getting this false flag stuff from? Alex Jones? Breitbart? Where did this all start?

I doubt there were even 1/100. I have no doubt that there were SOME Antifa members there, but we needed no instigation. There are more than enough PATRIOTS in America right now that believe that we are on the brink of civil war. That the only way to get our country back is by physically dragging these people out of office.

This is pre-revolutionary.

The photos that are circulating about the Viking guy being Antifa, they are deceptively editing out his SIGN at the BLM event. His sign said "Q SENT ME". Who edited that out? Wasn't a Trump supporter editing that out. Wasn't a Patriot editing that out.

They are trying to turn us on our own revolution. Now all of a sudden, patriots from 5 days ago are denouncing the storming of the capitol, denouncing the breaking of windows.

As badly as the media tries to spin this, they have about as much reach with normies as they're going to get, but this is exactly the kind of jump-the-shark gaslighting that wakes a few more people up. Our country today is divided between those who believe everything the media tells them vs. those who are not allowed to openly voice their opinions.

Trump did concede the election at 4 a.m.:

Even though I totally disagree with the outcome of the election, and the facts bear me out, nevertheless there will be an orderly transition on January 20th. I have always said we would continue our fight to ensure that only legal votes were counted. While this represents the end of the greatest first term in presidential history, it's only the beginning of our fight to Make America Great Again!

That is how bad the brainwashing and lack of self thinking has gotten.

From a PR point you just lost all the non extremists. And what did it accomplish? You delayed a vote and further solidified that trump and his supporters are a problem. That's all well and good, but frankly I would have been fine with it if the Capitol had been burned to the ground yesterday. I wouldn't want to see anyone hurt (such as the unarmed woman the cops murdered), but that building as far as I'm concerned is no longer a symbol of freedom. It's a symbol of an oppressive, authoritarian, out of control federal government.

THE KEY HERE IS THE INITIAL 'INCITEMENT' OF THE CROWD... WHIP UP A FEW STANDING PROTESTORS TO ATTACK THE BUILDING - AND YOU CAN START ALL KINDS OF VIOLENCE...

'FOVAL AND CREAMER' BOTH WERE CAUGHT USING THIS TECHNIQUE AGAINST TRUMP IN 2016. ALL DONE TO 'FRAME' TRUMP SUPPORTERS AS VIOLENT. ALL TOTALLY FALSE. THAT IS THE WAY OF THE DEMOCRAT PARTY.

Nice, this video is a good comeback to anyone saying "oh how do you know it's antifa? Just because they're screaming it doesn't make it so".

The crowd obviously is AGAINST the window smasher and cheered when he was stopped.

When I first saw the video of the "rioters storming the capitol" I thought they were evacuating tourists because they were calmly walking through the building taking pics. It took me a few minutes to realize they were the people storming the capitol.

LOL! Same here. I got a "Breaking News! Protesters Storm Capitol Building!" alert on my phone. I went to the news (OAN) and instead of *San Cullotes* storming the Bastille, I saw tourists wandering around the building being led by a guy in a Viking Helmet. Hardly the equivalent of the libtard assault on Capitol Hill during the Kavanaugh hearings. It was entertaining to watch Fredo clutch his pearls on CNN though.

You mad, bro?

Those people yesterday were just following your advice and protesting via direct action. You people claim that there's no higher form of patriotism than engaging in protest against "fascism".

You're just upset that a mob of weaponized intersectional feminism majors couldn't burn down a Federal Courthouse in Portland after three months while a bunch of sightseers breached the Capitol Building for selfies with Capitol Hill Police in less than one hour.

Yet when you're burning down your shithole cities, killing innocent people, and assaulting the cops with bricks and metal bats, you're not asking if anyone else is living in "some alternate reality" by larping on a message board.

Nice try, but people like you do support political violence, as evidenced by this past Summer, this past election cycle, the Kavanaugh hearings, etc. You're even engaging in violence, of the verbal sort, now in attempting to identify me with Timothy McVeigh. This is your typical modus operandi. A highly disturbed individual like McVeigh kills 168 people, but the people your ideology supports, from every form of left wing statist experiment since 1917, has resulted in the deaths of over 100 million people. They didn't die in a senseless truck bomb blast in an act of instantaneous evil, they died in state ordained cruelty and misery over the span of decades, some of which, like in China, is occurring even today.

To obscure the fact that your ideology is intellectually bankrupt and immoral, you instead project your neurosis onto anyone you happen to disagree with politically. We're all "McVeighs" while you wish for the death and destruction of 75,000,000 people who didn't vote for Joe Biden and for the actions of a few people who got caught up in the moment and followed along with someone's bad idea yesterday. Yet you don't apologize for the outright terrorism of innocent people living in innocent communities by BLM/Antifa last year simply because Orange Man Bad. Being a liberal apparently means never having to say your sorry despite living a life that you should apologize for every day.

That video is a portion of the perimeter being opened up after the portion next to it fell. The cops rightly saw no point in defending a barrier right next to a wide open pathway, and didn't want to get surrounded. That said, it was amazingly polite from both sides.

This. Some of the cops were helpful. Some were assholes. Some saw people pushing in anyway and were like "Fuck it".

It probably helped that our side wasn't throwing frozen water bottles, piss, shit, garbage and bricks at them.

The bad cops still outweighed the good ones and they came out in force towards the evening.

The protestors yesterday were just doing what the left did during the Kavanaugh hearings. They occupied the Capitol (after they were let in!), but were never a threat. They weren't even armed.

The problem is that the left controls the narrative. They declare which protests are peaceful or not and which riots are justified or not. Peak clown world.

President Trump said that the FAKE NEWS suppression media is the biggest problem at the rally.

Basically, protesting doesn't really work for us because of this. The media just spins any protest as a win for themselves. In the same way it doesn't matter how many votes we win by, because their strategy is to just wait until we're done counting and then add in enough fake ballots to "win", it also doesn't matter how peaceful we are, because they will just claim we are violent, or intimidating, or "a threat to democracy". Even if President Trump issues a video calling for peace, they just delete the video and don't report it. Then they say "he refuses to call for peace". And then the corporations repeat it on every channel nonstop. If you go on social media and try to share the video, they suspend you and delete your account.

They cheat "as little as possible", e.g. skew the numbers slightly so they have a lead, that it seems like a "close election". Trump could only win because in 2016 because he overwhelmed the algorithm where it could no longer ensure victory, in 2020 they added panic measures: closing down the counting for hours and shipping in additional ballots.

It takes only 5% of the population to carry out a revolution. Most people, 90% of people are mindless NPCs without any political consciousness. When the French revolution, Russian revolution happened, 95% of the people did absolutely nothing. The elites know this very well and they're terrified that we're actually able to engage millions and millions of patriots, despite all the propaganda and demoralisation. We have all it takes now to change the culture.

A church across the street from the White House was set ablaze. The White House itself was surrounded by an angry mob that tried to storm the gates multiple times. The media acted like it was tyranny when capitol police used tear gas to disperse the "peaceful protestors", while paradoxically chortling about the rumors that Trump had been forced to flee to a bunker for safety.

But some conservatives standing inside the entrance of the capitol building was the scariest thing to ever happen to our nation apparently, and they're literally laughing about an unarmed Trump supporter being shot dead.

The video of the projectiles raining down on DC police from that day was chilling.

But it's even worse than that. They terrorized the capital so much that Trump went into the bunker. Bongino said people were legitimately worried the WH could be breached.

Then the next morning they mocked Trump for going into the bunker and elected officials painted the name of the group responsible on the street.

Normal people see the blatant propaganda

Just kidding, be back in a few hours before the blood outside has dried

And then we will chit chat and "vote on objections" while nonchalantly lying to public about our "fair" and "transparent" election.

"We didn't count the 80,000 votes. I don't know what more we could have done for someone who was accusing us of fraud"

Actual words I heard ^

Not that we needed the affirmation, but it showed us that the police and government at large will support looting and rioting when it is explicitly racist against the correct groups.

When the wrong demographic group assembles the use of violence is encouraged by the State.

because it's proof that the shadow government is so large and powerful that you can't fight out of it

you could fight in the world wars, through slavery, etc

but what now? every tech conglomerate answered to the CCP

the government will openly execute unarmed nonthreatening people after letting them into the capitol and then celebrate it, after not shooting a single BLM/antifa after 6 months of them razing government and city buildings

95%+ of those in government are corrupt

it's the revelation that the USA as a nation is dead, a husk of its former self with no actual constitutional rights, as those in power all infringe on them on a daily basis without recourse

They're going to use this as an excuse to limit/strip the right to peacefully assemble and redress government of grievances. That's going to be the first to go. They're going to use this as the reason.

Then they're going to go after free speech and limit/strip that right. No more certain words are allowed to be uttered or printed. No more right to speak to like minded individuals. No more right to say what you think and criticize.

Then they're going to force ALL gun owners to register their weapons. it'll be a federal law. If you don't register them and get licensed for them (and forcing you to renew your license), you're breaking the law. Then, they'll say 'too many people have guns that aren't registered. In light of that, we're going to have to do audits going door to door. The people that aren't complying will be arrested and their guns will be confiscated.' Finally, they'll cut the shit and just say, 'no more guns. Take all firearms to your local police department. We'll be doing audits. If you don't turn them in, we'll put warrants out for your arrest and come get you in the middle of the night.'

Once the first and second amendments are severely curtailed and/or gone, that's it. Our transformation into a communism/socialism is complete.

Loeffler was never going to contest. She only said that when she realized that she needed Trump votes and it was too late at that point. She lost the race through her own incompetence.

Remember, Trump didn't want her in the first place. He wanted Collins. I'm sure that pissed her off. And when she didn't win, she no longer had an incentive to do anything for him. Shit if she DID win, she wouldn't have contested. This was just a final 'fuck you' to Trump, but more specifically, Trump supporters since she directly blames them for her not winning.

For once, the corrupt political establishment was scared.

That said, to say that yesterday's events were worse than the BLM riots is objectively false. Start to finish, yesterday's storming of the Capitol took less than 6 hours. The BLM riots spanned over multiple days. Nobody in Congress or in law enforcement was hurt yesterday (that I know of). Hundreds of officers were injured during the BLM riots. There was no arson and widescale looting yesterday, whereas the BLM riots primarily consisted of arson and looting.

There is an English show called "The Inbetweeners" the MSM just reminds me of Jay from that show. All he does is talk bullshit.

<https://www.youtube.com/watch?v=c5Ai98QoZGs>

What happened yesterday was great, it showed we have patriots with courage and who will take action, that was nothing but a warning shot to the corrupt politicians as if people wanted to harm them, they would have.

It sent a message that people are pissed off with the corruption, the lies and deceit. Sure the media will try and protect the ruling class, it's what they do, who cares.

I asked if she was HORRIFIED when all the statues were torn down and police stations were being burned and stores were being looted. She rolled her eyes.

This Democrat privilege is driving me insane.

if not for the censors.

Stop thinking the answer is peace. You have a CCP agent who is hostile to our rights as men, and we have a congress that knowingly and unlawfully put him in. The USDOJ are infested with 30 years of deep state agents who will disappear each and everyone one of the heroes yesterday. It's fight or flight times infinity, else it is game over.

The house and senate didn't get the message about how illegitimate the process was, and their answer will be to disappear you. Yesterday was the 1688 peaceful rally, from today on forward it is 1776,

Nobody here hates Asian or Chinese PEOPLE. It is the Chinese government and our corrupt politicians selling us out to China that draws everyone's ire.

I cannot decide if you are real or trying to stir things up. Nobody here is going to verbally abuse you for being Chinese ethnicity.

The gaslighting today is maybe the highest it's ever been and I have friends who are completely buying into it. Acting as if these people were terrorists and Trump incited violence. Yet, who was hurt? The only violence that can be pointed to is the government shooting and killing a citizen.

MSM was trying to play the destruction card. A couple of offices were trashed and some MSM equipment was burned (hahahaha) and a few windows were broken. I saw at least one window with a bullet hole through it so I will assume the cops with rubber bullets did that one.

Dudes livestreaming were yelling NOT to destroy or trash anything because we are not BLM and after all, it is OUR house.

No statues were torn down or defaced, no paintings stolen or slashed, nothing burned.

The icing on the fucking cake is politicians and MSM being more concerned with extremely minor property damage than the fact an innocent life was taken by overzealous twat cops.

And they got fucked with for it:

"On March 25, 1774, British Parliament passes the Boston Port Act, closing the port of Boston and demanding that the city's residents pay for the nearly \$1 million worth (in today's money) of tea dumped into Boston Harbor during the Boston Tea Party of December 16, 1773."

Tyranny is nothing new. Minutemen, Patriots, Signers of the DOI and the Continental Army all had setbacks.

They all had powerful forces aligned against them.

They did not quit.

Now we know why they didn't just kill him. This was the best case scenario for the globalist left. If this wasn't totally planned by them then they just hit the lottery. All goals completed... Complete consolidation of power. Destroy Trump brand, legacy, movement, vilify supporters, and destroy his potential to run in 2024. They played it perfectly. This is going to be a long war.

Where were the anti-fa and BLM counter-protests when this happened? Were the actions of the rioters consistent with MAGA? If I wanted to occupy the house I wouldn't steal, take selfies or destroy, I would sit in on the floor of the Senate and Congress. Why did they scale walls that had steps to both sides and were unobstructed? Why would the pictures of the wall scalers be cropped to show only the wall? Anti-fa walked among us yesterday and hijacked our movement. Did patriots go into Congress? Yes. I don't think they will "find and prosecute" all of the people who entered because they will surely find an anti-fa/BLM connection.
